

**Announcement of a Special Issue of Wireless Personal Communications (an international journal of Springer Nature Publishing) on:**

**Advanced Networks and Telecommunication Systems**

Announcing a Special Issue of Wireless Personal Communications on:  
ADVANCED NETWORKS AND TELECOMMUNICATION SYSTEMS

This special issue of **Wireless Personal Communications (WPC)** for the 16<sup>th</sup> IEEE International Conference on Advanced Networks and Telecommunication Systems (IEEE ANTS 2022) will feature expanded versions of selected high-quality papers presented at the conference. **IEEE ANTS 2022** (<https://ants2022.ieee-ants.org/>) will be held at the **Indian Institute of Technology (IIT) Gandhinagar**, India, during **18-21 December 2022**. Authors are encouraged to submit their work to IEEE ANTS 2022 (Call for Papers: <https://ants2022.ieee-ants.org/authors/papers/>) for inclusion in this Special Issue.

Authors of the selected papers will be notified after the conference to prepare and submit the expanded versions of their paper/s to this special issue. Selected papers will undergo a separate review process by the journal before a decision is made. Papers submitted to any of the conference tracks (Regular, Short, Women in Engineering, Workshops) will be considered for this special issue. The selection criteria include the conference paper's score, novelty, expandability, and impact. The selected manuscripts must be prepared according to the submission guidelines of the Wireless Personal Communications and will need to be uploaded through Springer's electronic submission system, selecting the ANTS 2022 special issue.
